Practical Information:

Project Description:

The importance of our project about Islamophobia and Antisemitism is very high. All civilizations of around the world have a dream to live together with peace during the history. The biggest difficulty is that people have prejudice against the dream, our project based on this judgment, have a purpose that how to advance their prejudice. We thought art could be the most supportive on our project and we aimed to use each branch of art on the project's activities. Art is most effective thing to destroy to prejudice. For this reason, looking through art window to world have not any prejudice.

There will be two main expectation about the results of our project. First one is benefits of the project for participants, second is sharing the results of the project with public and some other organizations. 2 results have short term benefits and long term benefits. If we talk about short term benefits, participants will get important steps about forgetting prejudices and sharing results of the project with some others. If we talk about long term benefits, participant will share their good experiences to other people in their countries and by the help of these, some other people will benefit from our project results and forget about their prejudices as well.

On the other hand, we will have trips to historical and natural places, Trabzon center to play Scavenger Hunt game, and also we will have organized cultural nights and party nights, free times on the beach, and we will have a surprise day with full of activities.
